

Elevated Landscaped Pedestrian Deck near MTR Kwun Tong Station

Upcoming Major Works

2023 2nd Quarter

The contractor will commence slope-cutting work and installation of soil nail at the slope near Kwun Tong Road / Hip Wo Street Rest Garden. During the construction period, the contractor would implement environmental mitigation measures to reduce dust and noise caused by rock breaking activities in order to minimize potential adverse impact to the nearby stakeholders. In addition, the contractor will carry out the advance works for the bridge foundation construction, such as underground utilities diversion.
